4 for Microsoft® Windows® operating systems Updated The Datacard XPS Card Printer Driver uses Microsoft XPS print technology to support card production using an SD Series, CD8xx Series, CE840 and CR805 systems.. License Grant 2) Run Thomas' marvellously patched F5D6050Driver package The unit could/should be working (check Networking in System Preferences), but the 'Belkin Wireless LAN Configuration' app won't recognise it, so there's one more step.. The following operating Systems (latest service pack recommended) are supported with the XPS Card Printer Driver v7.
